

AI Masterclass Advanced AI Prompt Pack — Monetize & Analyze Businesses

A battle-tested library of **copy-paste prompts I personally use** for researching markets, crafting offers, building funnels, producing ads, modeling unit economics, and optimizing growth. Every prompt includes variables in **{BRACES}**. Replace them with your details. Prompts assume a capable model with web access and structured outputs. If web/browsing isn't available, paste in your source text/CSV and ask the model to work from that.

Use style: "Think through this internally. Show only final answers and concise bullet proof steps, not your scratchpad."

0) How to use this pack (fast start)

Master meta-prompt (wrap anything with this):

"" Role: You are a senior growth strategist + data-literate marketer + product manager. Output style: crisp bullets, tables, and numbered actions. Cite assumptions, list risks, and include a 7-day action plan. Guardrails: Avoid unrealistic guarantees. Keep ad copy compliant (no personal attributes or income promises). If data is missing, ask for the minimum inputs. ""

Standard variables:

- {BUSINESS}: short description
- {ICP}: ideal customer profile
- {OFFER}: core product/offer
- {PRICE}: price/price tiers
- {GOAL}: e.g., "\$10K MRR in 90 days"
- {CHANNELS}: e.g., "Meta, TikTok, Email"
- {REGION}: geography
- {COMPETITORS}: list
- {DATA}: paste data/notes

Output formats: Ask for **TABLES**, **JSON**, **checklists**, and **step plans**. Example:
Return as a table with columns: Step | What | Owner | Tool | KPI | Deadline.

1) Opportunity & Niche Discovery

1. **Opportunity scan (TAM/SAM/SOM draft):** "Identify 5 promising niches for {BUSINESS} serving {ICP} in {REGION}. For each niche, estimate TAM/SAM/SOM with back-of-envelope logic, top pain points, current solutions, unmet gaps, and a simple entry angle. Table output."

2. **Problem inventory (JTBD):** "Based on {ICP} and {BUSINESS}, list 15 'jobs-to-be-done' and map each to pains, existing hacks, and willingness-to-pay (Low/Med/High). Add 3 interview questions per job."
 3. **Signals of money:** "Give 12 demand signals I can validate this week for {NICHE}. Classify as Purchasing, Urgency, or Frustration signals. Include scrappy validation tactics."
 4. **Niche wedge ideas:** "Propose 10 'wedge' offers to enter {NICHE}. Each: micro-segment, single painful job, fast result promise (no hype), and how to ladder into a broader suite."
 5. **Blue ocean finder:** "Plot a 2x2 positioning map for {NICHE}: X={AXIS1}, Y={AXIS2}. Place {COMPETITORS} and suggest 3 'empty quadrant' positions with example messaging."
 6. **Seasonality calendar:** "Create a 12-month demand calendar for {NICHE} in {REGION}. Include spikes, events, deadlines, budget cycles, and timely hooks."
 7. **Constraint-led ideation:** "Design 8 offers that can be delivered by a solo operator in <2 weeks with <\$500 budget to serve {ICP}. For each: scope, deliverables, price test."
 8. **Regulatory landscape (non-legal):** "Summarize key compliance considerations for {NICHE} in {REGION}. Non-legal overview + checklist to review with an attorney."
 9. **Data-first idea:** "List 10 services/products for {NICHE} where the *data asset* compounds (templates, benchmarks, datasets). Show how data increases switching costs."
 10. **Execution feasibility:** "Score {IDEAS_LIST} on Impact, Confidence, Ease (ICE). Output a ranked table and a 14-day test plan for the top 2."
-

2) Customer & Insight Mining

1. **Persona distillation:** "From {DATA} (reviews, calls, forums), produce 3 personas with demographics, psychographics, buying triggers, anxieties, and 'jobs'. Include top phrases they use."
2. **Objection map:** "List the 12 most likely objections to buying {OFFER} at {PRICE}. For each: root cause, reframing, proof asset needed, copy snippet."
3. **Message-market fit probes:** "Draft 10 one-sentence 'value tests' for {OFFER} aimed at {ICP}. Each has a 'Because...' clause and a concrete outcome."
4. **Win/loss interview guide:** "Create a 12-question win/loss guide for recent buyers and non-buyers of {OFFER}. Add scoring and how to synthesize insights into roadmap."
5. **Review mining brief:** "Given {COMPETITORS}, mine 50 reviews to pull pains, delights, language, and feature requests. Cluster into themes and suggest copy lines."

6. **Mom-test fixer:** "Rewrite these interview questions to avoid leading the witness and confirm demand without pitching: {QUESTIONS}."
 7. **Outcome articulation:** "Translate fuzzy goals into measurable outcomes using the format: 'From {CURRENT} to {TARGET} in {TIME}, measured by {METRIC}'. Apply to {OFFER}."
 8. **Language mirror:** "From {DATA}, extract 25 verbatim phrases customers use about {PROBLEM}. Group by emotional tone. Provide 'cleaned' copy variants."
-

3) Competitor Teardown & Moat Mapping

1. **Teardown table:** "Analyze {COMPETITORS} websites/offers. Table: Positioning | ICP | Pricing | Proof | Funnel | Strengths | Gaps | Copy Swipes."
 2. **Parity vs. Differentiation:** "List parity features we must match vs. differentiators we can own for {OFFER}. Add 3 defensible moats (data, distribution, workflow, brand)."
 3. **Speedrun funnel rip:** "Outline each competitor's funnel from ad → LP → checkout → onboarding. Note friction points and upsells."
 4. **Offer gap remix:** "From competitor reviews, propose 7 'anti-features' or simplifications customers want."
 5. **Switching cost plan:** "Create a 'switch without risk' plan: import tools, migration bonuses, time-boxed concierge, and guarantee options for {OFFER}."
 6. **Price spectrum:** "Chart the price spectrum across {COMPETITORS}. Mark value adds and perceived fairness. Recommend our anchor, decoy, and hero price."
 7. **Traffic sources:** "Hypothesize top 5 acquisition channels for each competitor and what creative angles likely work."
 8. **Moat by workflow lock-in:** "Design subtle product hooks that increase daily habit/use for {OFFER}."
 9. **Benchmark KPIs:** "List benchmark metrics (CTR, CVR, AOV, churn, LTV/CAC) for {NICHE}, with sources to seek. Provide sanity ranges when data is unknown."
 10. **Legal/compliance watch (non-legal):** "Flag any risky claims competitors make. Rewrite them into compliant, benefit-rich versions."
-

4) Offer Crafting & Value Ladder

1. **Value ladder:** "Design a 4-rung ladder for {BUSINESS}: Lead Magnet → Core Offer → Premium → Continuity. Add deliverables, target CVR, and upsell logic."
 2. **Offer stack:** "Create an offer stack for {OFFER} including main deliverable, bonuses, proof, risk reversal, scarcity/urgency (ethical), and FAQ."
 3. **Outcome → mechanism:** "Map promised outcomes to mechanisms (curriculum, workflows, templates, software). Ensure mechanism plausibly causes outcome."
 4. **Guarantee spectrum:** "Propose 5 guarantee types (satisfaction, action-based, milestone-based). Include exact terms (non-legal) and screening to avoid abuse."
 5. **Bonus engineering:** "Generate 7 bonuses that remove common obstacles (time, skill, tools, confidence) for {ICP}."
 6. **Objection-anchored bonuses:** "For each objection from Section 2, assign a specific bonus that neutralizes it."
 7. **Ethical scarcity:** "Suggest 5 genuine scarcity levers (cohort size, support bandwidth, calendar windows) and how to communicate them."
 8. **Outcome proof plan:** "List 10 proof assets to collect in the next 30 days (before/after, loom demos, anonymized benchmarks, third-party reviews)."
-

5) Pricing & Monetization

1. **Packaging matrix:** "Create 3 tiers for {OFFER} with good/better/best packaging, features, and price psychology. Include add-ons and payment plans."
2. **WTP tests:** "Design 4 lightweight price tests (Van Westendorp survey, decoy bundle, anchor pricing on LP variants, founder chat interviews)."
3. **ROI framing:** "Build 5 ROI narratives for {ICP}: time saved, revenue gained, cost avoided, risk reduced, optionality created."
4. **Enterprise considerations:** "Draft enterprise packaging (seats, SSO, SLAs). Add lead qualification checklist."
5. **Freemium / trial:** "Propose freemium/trial structure with upgrade triggers and in-product paywalls."
6. **Payment terms:** "Recommend upfront vs. monthly and discounts. Include cash-flow effect and refund policy draft (non-legal)."

7. **Price sensitivity matrix:** "Score features by sensitivity to price. Show which to move between tiers."
 8. **International pricing:** "Suggest regional price localization strategy for {REGION} with parity guidance."
-

6) Funnel Architecture & Pages

1. **Funnel blueprint:** "Design the acquisition → activation → revenue funnel for {BUSINESS}. Table: Stage | Primary Action | Key Screens | KPIs | Tools | Experiments."
 2. **Landing page wireframe:** "Produce a section-by-section LP wireframe for {OFFER} including hero, social proof, mechanism, outcomes, syllabus/feature table, FAQ, CTA blocks."
 3. **Lead magnet map:** "List 8 lead magnet ideas with titles, content outline, and delivery format."
 4. **Upsell/Cross-sell map:** "Define 6 upsells/cross-sells with logic rules (who sees what)."
 5. **Checkout friction removal:** "Audit checkout for {OFFER}. Provide a 12-point friction checklist and quick fixes."
 6. **Post-purchase sequence:** "Draft a 5-email + 3-SMS onboarding sequence to drive activation, usage, and referrals."
 7. **Waitlist/validation page:** "Write a 1-page fake door test for {IDEA} with headline, subhead, bullets, CTA, and 'What happens next'."
 8. **Webinar/VSL outline:** "Create a 7-part webinar/VSL outline with story beats, proof moments, demo, and soft/primary CTAs."
 9. **Quiz funnel:** "Design a 6-question quiz for {ICP} that segments into 3 archetypes with tailored recommendations and follow-ups."
 10. **Refer-a-friend:** "Propose a referral loop with rewarding mechanics and anti-fraud basics."
-

7) High-Performance Copy Blocks

1. **Hero variants (compliant):** "Write 10 compliant hero headlines + subheads for {OFFER} to {ICP}. Avoid 'you' + sensitive attributes. Focus on outcomes, mechanism, specificity."
2. **Benefit bullets (PAS/AIDA):** "Create 20 bullets: 10 PAS, 10 AIDA for {OFFER}. Keep to <16 words each."

3. **Proof microcopy:** "Draft 15 proof snippets (metrics, time to value, endorsements) formatted for badges/callouts."
 4. **Risk reversal copy:** "Write 5 guarantee blurbs with clear eligibility and next steps."
 5. **FAQ pack:** "Produce 12 FAQs with concise yet credible answers, linking to docs/demos."
 6. **Compliance pass:** "Rewrite this copy to be Meta/TikTok compliant while preserving strength: {COPY}."
 7. **CTA bank:** "List 25 specific CTAs categorized by stage (cold, warm, hot)."
 8. **Email subject lines:** "Generate 30 subject lines across curiosity, proof, offer, and content. Tag by tone."
 9. **Social hooks:** "Give 25 1-line hooks for short-form video intros for {ICP}."
 10. **Case studies:** "Create a 5-section case study template (Context, Constraint, Intervention, Outcome, Lessons). Fill with placeholders for {OFFER}."
-

8) Creative & UGC Scripts

1. **Hook-Story-Offer script (60s):** "Write a 60-sec UGC script: Hook (pattern interrupt) → Problem → Micro demo → Offer → CTA. Include shot list and on-screen text."
2. **Comparison ad:** "Script a side-by-side comparison between 'manual way' vs. '{OFFER} way'. On-screen labels only, no competitor naming."
3. **Before/After timeline:** "Storyboard 5 scenes that show a 7-day transformation using {OFFER}. Keep claims conservative."
4. **Creator brief:** "Create a creator brief with brand do's/don'ts, hooks, key lines, and raw asset checklist."
5. **UGC testimonial coach:** "Provide a natural 8-line testimonial script for {ICP} focusing on hesitations → result → specific use."
6. **Motion graphic overlays:** "List 10 overlay ideas (progress bars, checklists, timers) for reels explaining {OFFER}."
7. **Ad copy carousel:** "Generate 5 carousel post captions. Each slide: headline, proof, mini-lesson, CTA."
8. **B-roll list:** "List 25 B-roll shots that any phone can capture to illustrate {OFFER}."

9. **Creative angles matrix:** "Make a matrix of 12 creative angles (fear of loss, hidden cost, speed, social proof, simplicity, control, etc.) with sample lines."
 10. **Editing beat map:** "Map a 30-sec video to 6 beats (0-5s hook... 25-30s CTA) with example captions."
-

9) Outreach & Sales

1. **Cold email framework:** "Write 5 short cold emails for {ICP} with 1:1 personalization tokens {TOKEN1}/{TOKEN2}. 75 words max. Soft CTA to a 10-min audit."
 2. **DM scripts:** "Provide 7 DM openers for {PLATFORM} that don't trigger spam filters. Include a 3-step follow-up ladder."
 3. **Discovery call guide:** "Create a 20-minute discovery flow: opening, problem quantification, budget, timeline, success criteria, next step."
 4. **Proposal template:** "Draft a 1-page proposal with scope bullets, outcomes, timeline, price options, and acceptance block."
 5. **Objection handling:** "For {TOP3_OBJECTIONS}, write respectful responses + proof asks + next step."
 6. **Calendly microcopy:** "Write scheduling page copy that increases show-up rate with pre-work and agenda."
 7. **Case study one-pager:** "Create a 7-block one-pager layout and copy for a results story."
 8. **Partner/Affiliate outreach:** "Generate 5 outreach emails to potential affiliates. Include terms summary and swipe kit offer."
-

10) SEO & Content Engine

1. **Topic clusters:** "Build 5 clusters (pillar + 6 spokes) for {NICHE}. Include searcher intent and internal link plan."
2. **Briefs:** "Create an SEO brief for '{KEYWORD}': outline, entities to cover, FAQs, and schema suggestions."
3. **Repurposing map:** "Turn one webinar into 12 assets across channels with captions and CTAs."
4. **Thought leadership:** "Outline 10 contrarian takes that are evidence-based for {NICHE}."
5. **Newsletter engine:** "Design a weekly newsletter structure with sections, lead magnets, and ad inventory plan."

6. **Programmatic SEO:** "Propose a programmatic template (e.g., 'Best {TOOL} for {USECASE}') including data fields and generation rules."

7. **Content-to-conversion:** "Map top articles to CTAs and lead magnets. Add retargeting audiences."

11) Paid Social & Ad Ops (Compliance-Safe)

1. **Angle bank:** "Write 20 ad angles for {OFFER} that avoid sensitive attributes and income guarantees."

2. **Copy variants:** "Create 12 primary texts (125–280 chars) + 12 headlines (<40 chars) for Meta/TikTok."

3. **Compliance rewrites:** "Rewrite these ads to be compliant while strong: {AD_COPY}. Add 3 safer alternatives each."

4. **Hook test plan:** "Design a hook test with 10 hooks × 3 bodies × 3 CTAs. Define KPI gates and kill rules."

5. **Creative briefs:** "Produce 3 briefs: UGC demo, tutorial, myth-busting. Each with editable script."

6. **Ad naming conventions:** "Suggest a robust naming convention for campaigns/ad sets/ads."

7. **Budget ramps:** "Plan budget allocation for {BUDGET} over 2 weeks with learning-phase respect."

8. **UTM & tracking:** "Define UTM schema and GA4/PostHog events for paid traffic."

9. **Retargeting stacks:** "Map 3 retargeting sequences (viewed content, ATC, initiate checkout) with creatives."

10. **Policy checklist:** "Checklist to review ads for compliance (platform-agnostic)."

12) Local Service Business Playbooks

Industries: dental, med-spa, HVAC, real estate, solar, roofing, auto-detail, fitness coaching, landscaping, restaurant.

1. **Discovery & offer:** "For {INDUSTRY} in {CITY}, craft 3 high-conversion offers and a 7-day 'results in advance' plan."

2. **Lead machine:** "Build a simple lead machine: LP → calendar → SMS reminders. Include scripts and automations."

3. **ROI calc:** "Create a quick ROI calculator and show example numbers for {INDUSTRY}."

4. **Reviews engine:** "Design a reviews request workflow post-appointment (email/SMS copy)."
 5. **Neighborhood targeting:** "Map ZIP-level targeting plan with angles and mailer ideas."
 6. **Seasonality promos:** "Write a 12-month promo calendar with hooks per season."
 7. **Retention:** "Membership ideas for recurring revenue + perks."
 8. **SOPs:** "Draft SOPs for intake, no-show recovery, and referral asks."
-

13) E-commerce CRO & Lifecycle

1. **PDP teardown:** "Audit a product page for {PRODUCT}. Provide a 20-point CRO checklist and a fixed wireframe."
 2. **Bundle/upsell:** "Suggest 6 bundles/upsells that improve AOV without hurting CVR."
 3. **UGC reviews mining:** "Extract 25 review lines and convert to benefit bullets and badging."
 4. **Email flows:** "Write welcome, browse abandon, cart abandon, post-purchase, winback flows with 3 emails each."
 5. **SMS flows:** "Create 6 SMS messages (compliant) for key moments."
 6. **Offer calendar:** "Build a 90-day promo plan with light/medium/heavy offers."
 7. **Speed/resilience:** "Checklist for site speed and resiliency during peaks."
 8. **UGC briefs for PDP:** "Brief 5 UGC shots tailored to objections on the PDP."
-

14) SaaS Validation & MVP

1. **Problem spec:** "Write a crisp problem spec for {SaaS_IDEA}: who, when, where, why current solutions fail."
2. **MVP slice:** "Define the smallest coherent MVP that solves one painful job."
3. **Fake door:** "Design a fake door test with pricing, CTA, and follow-up survey."
4. **Waitlist triage:** "Segment waitlist by intent and propose onboarding for top 10%."
5. **Onboarding checklist:** "Create a day-1 onboarding that triggers the 'aha moment'."

6. **Usage analytics:** "Event schema to measure activation/retention for {MVP}."
 7. **Support loop:** "Triage macros, self-serve docs, and escalation SOP."
 8. **Roadmap:** "12-week roadmap with 3 themes: stability, value, growth."
-

15) Financial Modeling & Unit Economics

1. **Unit economics:** "Build unit economics for {OFFER}: COGS, CAC, AOV, Gross Margin, Payback, LTV. Return as a table + formulas."
 2. **Breakeven:** "Calculate breakeven orders/clients per month at {PRICE} given {FIXED_COSTS} and {VARIABLE_COSTS}."
 3. **Scenario plan:** "Model best/base/worst scenarios for next 6 months with key levers."
 4. **Cohort LTV:** "Compute LTV via cohort retention {DATA}. Show sensitivity to churn."
 5. **Cash runway:** "Project runway given current burn and planned spend."
 6. **Attribution sanity:** "Estimate blended CAC using traffic mix assumptions."
 7. **Pricing impact:** "Simulate price +10/-10% on revenue and churn."
 8. **Sales capacity:** "Model capacity: calls/day, close rate, show rate, ramp."
 9. **Refund risk:** "Create a refund reserve model using historical rates."
 10. **KPI dashboard:** "Define a weekly dashboard with thresholds and alerts."
-

16) Analytics, Experimentation & Ops

1. **North Star metric:** "Propose a North Star and input metrics for {BUSINESS}."
2. **Event schema:** "Design GA4/PostHog events with names, props, and examples."
3. **Experiment backlog:** "Generate 30 test ideas ranked by ICE with brief hypotheses."
4. **Sample size:** "Estimate needed sample sizes for top experiments."
5. **QA plan:** "Create a pre-launch QA checklist for tracking and UX."

6. **Ops cadence:** "Propose a weekly growth meeting agenda and doc template."
 7. **Alerting:** "Define anomaly alerts for spend, CVR, CAC, LTV."
 8. **Post-mortems:** "Template for experiment post-mortems with learning library."
-

17) Retention, CRM & Community

1. **Onboarding:** "Write a 14-day activation play with emails/SMS/in-app nudges."
 2. **Milestone map:** "List 10 customer milestones and the trigger communications."
 3. **Churn survey:** "Draft a 6-question churn survey and route-back offers."
 4. **Community flywheel:** "Design a community program: events, spotlight features, incentives."
 5. **Win-back:** "Create a 3-touch win-back with different angles each time."
 6. **NPS program:** "Implement NPS collection with referral asks and case study pipeline."
 7. **Account expansion:** "Signals and plays for expansion/upsell."
 8. **Support macros:** "Write 12 macros for common support tickets with empathetic tone."
-

18) Legal & Policy (Non-Legal Drafts to Review with Counsel)

1. **Disclaimers:** "Draft a conservative earnings/typical results disclaimer for {OFFER} to be reviewed by an attorney."
 2. **Terms overview:** "Outline key sections for Terms of Service and Refund Policy (non-legal)."
 3. **Privacy overview:** "Draft a privacy summary: what data, why, retention, third parties, rights."
 4. **Ad policy compliance:** "Turn {COPY} into platform-safe variants per Meta/TikTok rules."
 5. **Testimonial guidelines:** "Create a checklist for acceptable testimonials and disclosure language."
-

19) Prompt Critic, Optimizer & Hallucination Guard

1. **Critic:** "Critique the following output for accuracy, clarity, and compliance. Return fixes only. {OUTPUT}"

2. **Evidence demand:** "For each claim, request a citation or convert to 'weasel-word' safe phrasing."
 3. **Assumption exposure:** "List hidden assumptions in this plan and request missing inputs."
 4. **Counter-angle:** "Generate the strongest counter-arguments and how to address them."
 5. **Compression:** "Compress this 1,500-word plan into a 200-word executive brief with action items."
-

20) AI Builder: Agents, Workflows, and Assets

1. **Agent spec:** "Write a spec for an AI agent that does {TASK}. Inputs, tools, memory, guardrails, success metrics."
 2. **SOP generator:** "Turn this process into a step-by-step SOP with checkboxes: {PROCESS}."
 3. **Dataset plan:** "Design a small internal dataset (examples, rubrics) to fine-tune prompts for {TASK}."
 4. **Template factory:** "Produce 10 reusable templates (docs/spreadsheets/scripts) to speed up {WORK}."
 5. **Automation map:** "Map Zapier/Make automations from lead → CRM → email/SMS → analytics for {BUSINESS}."
 6. **Checker bot:** "Spec an internal 'compliance checker' that reviews copy for risky language and flags fixes."
 7. **Voice extraction:** "Extract brand voice from {DATA}. Return a style guide with do/don't examples."
 8. **RAG plan:** "Outline a Retrieval-Augmented Generation setup using {DOCS} as the knowledge base."
-

21) Case Study & Social Proof Generator

1. **Case study script:** "Interview script to elicit credible results without hype."
 2. **One-pager:** "Turn {RESULTS} into a one-page PDF copy with charts/tables described."
 3. **Short video:** "Write a 45-sec video script presenting the client story with on-screen captions."
 4. **Slides:** "Outline a 7-slide deck for pitch meetings, highlighting the mechanism and outcomes."
 5. **Website module:** "Create a reusable case study module for LPs with scannable proof."
-

22) Course-Specific: AI Masterclass Assets

1. **Syllabus summary:** "Summarize this syllabus into benefits and outcomes: {DATA}."
 2. **LP copy:** "Write top-to-bottom landing page copy for AI Masterclass targeting {ICP}."
 3. **Hooks:** "Generate 30 hooks for short-form content promoting AI Masterclass, tagged by angle."
 4. **Ad variations:** "Produce compliant ad copy variations (short/medium/long) for AI Masterclass."
 5. **Lesson builder:** "Turn this outline into 10 detailed lessons with objectives, activities, and assignments: {OUTLINE}."
 6. **Exercise prompts:** "Create 8 hands-on exercises that produce a portfolio-ready asset."
 7. **Quiz items:** "Write 20 multiple-choice questions with rationales to assess learning."
 8. **Cohort ops:** "Plan a 4-week cohort schedule with live sessions, homework, and feedback loops."
 9. **Upsell path:** "Design upsell to coaching/agency build with ethical framing and outcomes."
 10. **FAQ (course):** "Draft 12 FAQs to handle skepticism, time concerns, and access details."
-

23) Command Palette (quick use)

- **/brief** – Summarize inputs, constraints, goals
 - **/persona** – Create ICP + JTBD
 - **/offer** – Value ladder + bonuses
 - **/funnel** – Stage map + KPIs
 - **/lp** – Landing page wireframe + copy
 - **/ads** – 10 angles × 3 variants
 - **/ugc** – 60s script + shot list
 - **/email** – 5-part sequence
 - **/model** – Unit economics + breakeven
 - **/analytics** – Events + dashboard
 - **/experiment** – 30 test backlog
 - **/legal** – Non-legal drafts to review
 - **/optimize** – Critique + rewrite plan
-

Pro tip

Always ask the model to **list assumptions and required inputs** at the top of any output. That keeps results grounded and usable. Then run the **/optimize** prompts to tighten accuracy and compliance.
